UnicoDM is a hybrid dual-mono power amplifier design that is the perfect mate for the Unico PRE preamplifier, although it will blend seamlessly into most high-quality audio systems. Compared to the previous model of the same name, the new Unico DM features more than just a facelift. We wanted to substantially improve the unit in its most important design parameters, and the current version is more robust and powerful than ever before.

- Power output: 160W RMS continuous on 8ohm (stereo)
- 650W RMS continuous on 8ohm (mono)
- Frequency response: flat @ 10Hz ñ -0.1dB @ 100kHz
- Input stage: Pure class A Double tube stage (ECC82/12AU7)
- Output stage: Dynamic class A, Triple POWER MOSFET complementary pair
- Input connectors: 1 unbalanced, 1 balanced
- Output connectors: 4 + 4 per bi-wiring
- Power consumption: 900W max
- Dimensions: 17in x 7in x 17.3in
- Net weight: 55lbs
